Object: Staffing of the GND position during training/exam activities

The Training Department is in charge, among other activities, of tower position trainings and ADC rating exams. Within this framework, all procedures and skills proper to ground and delivery control are also taught and evaluated.

As a consequence, during the following activities:

- practical ATC School module with a trainer connected on a LFXX_T_TWR position
- ADC training with a trainer connected on a LFXX_T_TWR position
- ADC exam with an examiner connected on a LFXX_X_TWR position

the GND position cannot be staffed.

Any member connected on the GND position during these activities has to disconnect from the concerned position, even if he booked the position, whenever asked by the trainer/examiner (or eventually any staff member of the Division).

According to the NOTAM [N-FR-0415-1_EN](#), the DEL position cannot be staffed either.
