

**Number of legs : 3**

**Leg 1 : LFPI-LFAY**  
**Leg 2 : LFAY-LFOV**  
**Leg 3 : LFOV-LFPI**

Mission order :

You are on call today, you are dispatched for a VIP transportation with our helicopter. The CEO of a big multinational food company is stranded in Amiens, and needs to be back in Laval, where the headquarters are.

Lucky us, we have a wide helicopter fleet we can rely on, as well as highly qualified pilots.

The helicopter fleet is base at Issy-Les-Moulineaux.

Leg 1 : Pick up the CEO at Amiens airport, starting from Issy Les Moulineaux helistation.

Leg 2 : Transport the CEO to Laval

Leg 3 : Bring the helicopter back in Issy Les Moulineaux.

As the leg 2 is a passenger transportation, the flight needs to be performed in Instrumental Flight Rules (IFR).

All three legs will be performed with the same helicopter.

As we are quite short on our helicopter fleet, all three legs must be performed within **the same calendar day**
