

Ordre de Mission

Number of legs : 1

Etape 1 : EDDK-LMML

Mission :

During the last leg, one of your PACK failed down.

It's high time to take the aircraft in for maintenance, and the only MRO available is in Malta.

Take the aircraft you used for legs 17 and 18 from Cologne to Malta for maintenance.
Respect the operational constraints associated to the aircraft's technical condition (PACK and ILS).
